1. GENERAL INFORMATION

Pilot Gold Inc. ("Pilot Gold", or the "Company"), is incorporated and domiciled in Canada, and its registered office is at Suite 1900 – 1055 West Hastings Street, Vancouver, British Columbia, V6E 2E9.

Pilot Gold is an exploration stage business engaged in the acquisition and exploration of mineral properties located primarily in the United States of America and Turkey.

The Company has not yet determined whether its properties contain mineral reserves that are economically recoverable. The continued operations of the Company and the recoverability of the amounts capitalized for mineral properties is dependent upon the existence of economically recoverable reserves, the ability of the Company to obtain the necessary financing to complete the exploration and development of such properties and upon future profitable production or proceeds from the disposition of the properties.

2. BASIS OF PRESENTATION

These unaudited condensed interim consolidated financial statements for the nine months ended September 30, 2015 (the "Interim Financial Statements") have been prepared in accordance with IAS 34, 'Interim financial reporting'. The Interim Financial Statements should be read in conjunction with the annual consolidated financial statements for the year ended December 31, 2014 ("Annual Financial Statements"), which have been prepared in accordance with International Financial Reporting Standards ("IFRS") issued by the International Accounting Standards Board ("IASB") and interpretations of the International Financial Reporting Interpretations Committee ("IFRIC").

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

These Interim Financial Statements have been prepared using accounting policies consistent with those used in the Annual Financial Statements, except as described below.

Changes in accounting policies

The Company has adopted the following revised standards, effective January 1, 2015: IFRS 8, 'Operating segments' and IAS 24, 'Related party transactions'. There was no consequential impact upon adoption. Refer to the Company's condensed interim consolidated financial statements for the three months ended March 31, 2015 for further details.

Basis of consolidation

On March 12, 2015 the Company acquired an additional 20% interest in the Turkish entity, Orta Truva Madencilik Şanayi ve Ticaret A.Ş ("Orta Truva"), increasing its total ownership interest to 60% (Note 7c). As a consequence of the acquisition Orta Truva is now consolidated as a principal subsidiary of Pilot Gold.

Functional currency of Orta Truva

The functional currency of Orta Truva was changed from Turkish Lira to US Dollar due to a change in the primary operating environment of the entity at the time controlling interest was acquired by the Company (Note 7c).

4. SIGNIFICANT ACCOUNTING JUDGMENTS AND ESTIMATES

The preparation of financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

In preparing these Interim Financial Statements, the significant judgements made by management in applying the Company's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the Annual Financial Statements.

6. OTHER FINANCIAL ASSETS

From time to time, the Company may make strategic investments in other private or publicly traded entities. These investments are treated as long-term investments and may take the form of common shares and share purchase warrants.

Inputs to fair value measurements, including their classification within a hierarchy that prioritizes the inputs to fair value measurement are summarized in the three level hierarchies below:

- Level 1 Unadjusted quoted prices in active markets for identical assets or liabilities;
- Level 2 Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly; and
- Level 3 Inputs that are not based on observable market data.

As at September 30, 2015, Pilot Gold holds Level 1 equity securities with a total fair value of \$287,346. 7. EXPLORATION PROPERTIES AND DEFERRED EXPLORATION EXPENDITURES

None of the Company's properties have any known body of commercial ore or any established economic deposit; all are currently in the exploration stage. Expenditures at Halilağa are recorded in the Company's investment in Truva Bakır, an equity-accounted associate (Note 8).

The deferred exploration expenditures relating to the Company's interest in several exploration properties in Nevada and Utah have been aggregated and are described as 'Portfolio Projects' in the table below:

a) Kinsley Mountain

The Company holds a 79.1% interest in Kinsley Gold LLC ("KG LLC") (Note 12), the entity that holds the underlying lease and directly held claims that comprise the Kinsley Mountain property (together, "Kinsley").

The value of the non-controlling interest in KG LLC increased by \$301,277 during the nine months ended September 30, 2015 upon receipt of funding from the non-controlling interest holder, Intor Resources Corporation.

b) Gold Bug

The Company elected not to satisfy commitments under the underlying property lease agreement on July 13, 2015. The carrying value of the Gold Bug exploration property was consequently written down by \$740,146 to \$nil as at September 30, 2015.

Viper

On September 24, 2015 the United States Bureau of Land Management ("BLM") issued Land Use Plan Amendments severely restricting surface occupancy and use of areas inhabited by the Greater Sage Grouse, a protected species of bird, in several states including Nevada. Although the area including and immediately surrounding the Viper exploration property is exempt from these new restrictions on the basis of the bulk tonnage style gold discovery made by the Company in 2011, management has determined that the restrictions have made the recoverability of the deferred costs attributed to the Viper property unlikely, and the carrying value of the property was consequently written down by \$1,055,444 to \$nil as at September 30, 2015. The Company's other properties in Nevada remain unaffected.

c) TV Tower

On March 12, 2015, pursuant to having satisfied the following requirements (the "Earn-in Obligations"), the Company acquired an additional 20% interest in Orta Truva, such that the Company now holds a 60% interest in that entity:

- a) Incur \$21 million in eligible exploration expenditures ("Eligible Expenditures"); and
- b) Issue 6,555,000 Common Shares and 3,000,000 Common Share purchase warrants to Teck Madencilik Sanayi Ticaret A.Ş ("TMST") (Note 11d).

TMST, a subsidiary of Teck Resources Limited holds the remaining 40% interest. Orta Truva holds the licenses that comprise TV Tower.

The transaction did not meet the definition of a business combination, and was therefore accounted for as an acquisition of an asset in exchange for assets surrendered. Accordingly, the acquisition has been recorded at cost, including transaction costs comprising primarily legal fees of \$272,119.

Pursuant to the funding mechanism outlined in the TV Tower share-purchase and joint venture agreement, and in order to maintain the relative interests of TMST and the Company in Orta Truva until the Earn-in Obligations were satisfied, 60% of the Eligible Expenditures prior to satisfaction of the earn-in were advanced by the Company to TMST and accounted for as a component of the Earn-in Option, a non-current asset, the remaining 40% was recorded to the Company's interest in Orta Truva (Note 8).

7. EXPLORATION PROPERTIES AND DEFERRED EXPLORATION EXPENDITURES (continued)

The total carrying value of the Earn-in Option and the Company's 40% interest in Orta Truva (the "Consideration") as at March 12, 2015 were the total consideration exchanged for a 60% interest in Orta Truva. The Consideration was allocated to the assets acquired based on relative fair values on a 60% basis, the remaining 40% was allocated to non-controlling interest. Net current payable at the time of acquisition includes \$1,609,422 of amounts payable to a subsidiary of the Company that was eliminated on consolidation.

Options granted to Directors vest immediately, the remaining Options vest in thirds at the end of each year from the date of grant. Any consideration paid by the optionee on the exercise of Options is credited to share capital. Option transactions and the number of Options outstanding are summarized as follows:

	Weighted Average		
	Shares	Exercise Price	
	#	C\$	
Balance, December 31, 2014	8,885,000	2.18

	9,482,000	3.81	2.02	6,681,667	2.33

For the purposes of estimating the fair value of options using Black-Scholes, certain assumptions are made such as expected dividend yield, volatility of the market price of the Company's shares, risk-free interest rates and expected average life of the Options. We base our expectation of volatility on the volatility of similar publicly-listed companies, as the expected life of our Options exceeds our trading history.

The weighted average fair value of Options granted during the period determined using Black-Scholes was C\$0.63 per Option. The weighted average significant inputs into the model were share price of C\$1.11 at the grant date, exercise price of C\$1.11, volatility of 70%, dividend yield of 0%, an expected Option life of 5 years, and an annual risk-free interest rate of 0.65%. A 3.7% forfeiture rate is applied to the Option expense.
